C: The main objective(s) of this proposed plan...

This, along with MALDEF Submission 1, are partial plans with intentionally unnumbered districts. Together, there are two iterations of MALDEF Districts A/B and MALDEF Districts C that are easily interchangeable with each other, as to offer options for the Commission to consider plans which create two Latino Section 2 mandated districts along with preserving an effective opportunity district for the African-American community.

D: Plan provides fair and effective representation by...

Complying with the Voting Rights Act and respecting communities of interest.

E: Plan enhances opportunity for all voters by...

Complying with the Voting Rights Act and respecting communities of interest.

F: Plan meets all requirements of law by...

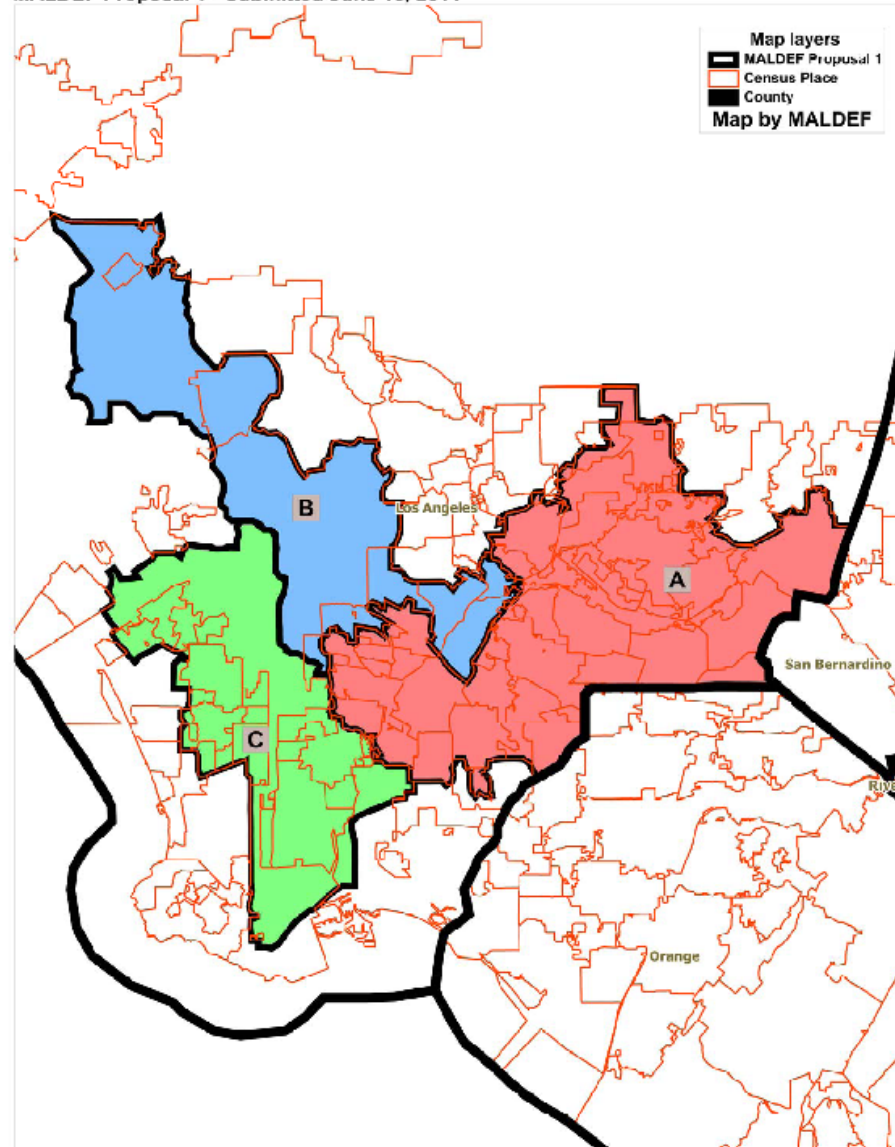

Producing districts that are in compliance with the U.S. Constitutional requirements of one person, one vote and full compliance with the Federal Voting Rights Act.

G: Optional additional comments are...

N/A

NOTES:

1. The source for population data is the Census Bureau's 2010 Census: Public Law 94-171 Redistricting Data.

2. Only moves of community areas that have some population are included in this report; see accompanying Communities & Total Population Reassigned by This Plan for a complete list of communities moved.

3. The Department of Justice defined this set of 8 exclusive race/ethnicity population categories; persons are counted once in their applicable DOJ category.

4. The source for the voter registration data is the County of Los Angeles' Registrar-Recorder/County Clerk.

5. Registered Voters Race/Ethnicity determined by matching voter surname against lists of surnames considered to be predictive of listed ethnicity.

6. Each D-to-D column summarizes one unique combination of From-To district and city/community/area.

7. Each Subtotal column summarizes population and registered voter data for the associated "From" District's column(s).

8. The Countywide COUNT is the population or registered voter total for all reassignments.

9. The Countywide % is the population or registered voter category COUNT's percentage of the County's total for that population or registered voter category.

10. Reassigned unpopulated areas are included in this list; dashes appear for their population and registered voter counts.

* Citizen Voting Age Population was generated by applying the percentages of the voting citizen age population by Race/Ethnicity from the American Community Survey (ACS) to 2010 Census counts of the voting age population.

1. The data source for the percentages of household income in this table is the American Community Survey (ACS). The ACS is an ongoing statistical survey by the U.S. Census Bureau, sent to approximately 250,000 addresses monthly (or 3 million per year). ACS estimates are based on data collected from January 1, 2005 to December 31, 2009, and are not 2010 Census data. The percentages of household income from the ACS were applied to the 2010 Census counts of the occupied housing units at the census block level to obtain estimates of household income as of April 1, 2010.
2. The **COUNT** columns contain number of occupied households for each district, and for household income categories within each district.
3. The **%** columns contain household percentages for each household income category within each district. TIP: Read these percentages across.
4. For some RDUs that had housing units in the 2010 Census PL94-171 data, there were household variables with no data in the ACS 2005-2009 5 year merged file. Either these housing units were not in existence at the time of the ACS data collection or none were picked up in the ACS sampling. There were also small differences between the ACS based estimates and the PL94-171 counts caused by rounding. Consequently, our estimates for these variables will not match exactly the housing unit numbers in the PL94-171 and there are differences in our table totals. The number of households is 22 lower than the PL94-171 occupied housing units.
